About me

A Product Owner at RCTI+ with a background in software development and quality assurance, with a strong understanding of the end-to-end product lifecycle. Experienced in defining product vision, managing product roadmaps, prioritizing backlogs, and writing user stories within Agile/Scrum environments. Skilled in collaborating with cross-functional teams including engineering, design, and business stakeholders to deliver high-quality digital products. Demonstrated ability to use data-driven insights to improve user engagement, optimize product performance, and support business objectives.

Experience

Product Owner

October 2024 - March 2026

RCTI+

- Defined product vision and managed product roadmap aligned with business goals
- Created and prioritized user stories and product backlog in Agile/Scrum environment
- Collaborated with developers, designers, and stakeholders to deliver product features
